AI Coaching

Team: Rohan Arora, Ronald Yalung, Elijah Batchelor, Hung Ngo

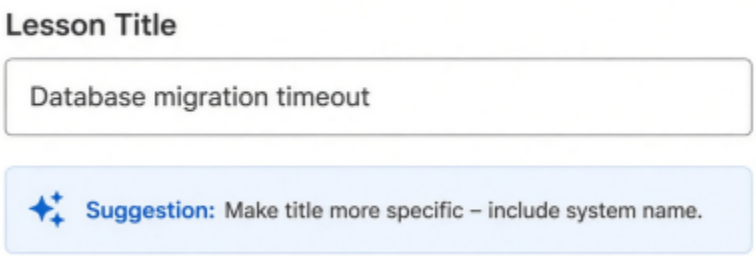

Team Project 2

Prioritized List of Input Fields

Priority	Field Name	Assignment (team Member)	Goal
1	Title	Rohan & Hung	Clarity and Suggestions
2	Description	Ronald & Elijah	Clarity and length

1. Title

GUI Mockup:

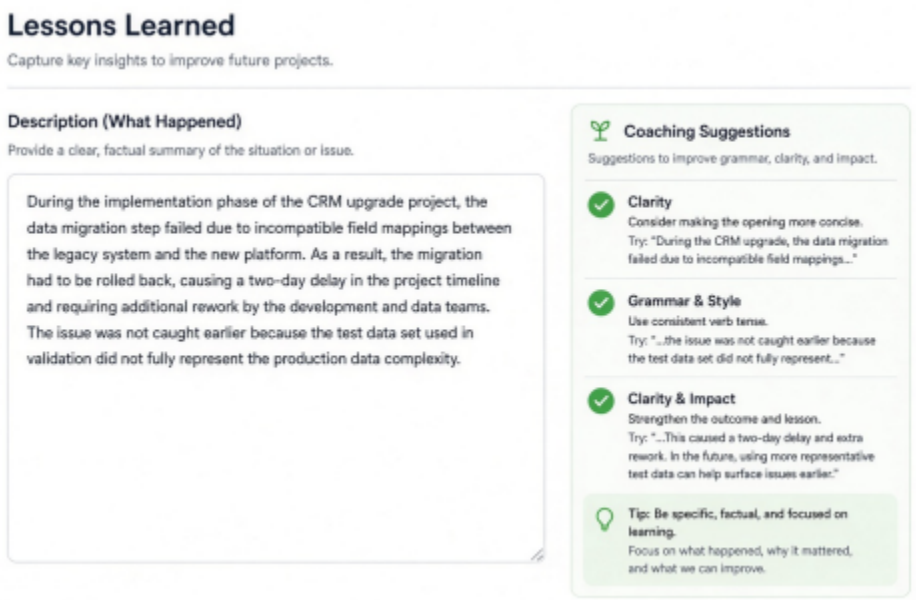

Concept of Operation:
When a user interacts with this field, it should try to give clear and helpful error messages and suggestions. These suggestions can be ignored or used. This should not conflict with the users original input.

List of Requirements:
Give basic length guidance along with spelling correction and any needed input validation.

AI tool:
LanguageTool is a good starter for this specific task.

2. Description

GUI Mockup:

Concept of Operation:
Make sure that the description is not empty, along with other input validation. We should also check for grammar and clarity in the description with an AI tool.

List of Requirements:
Grammar, empty check, input validation, and suggestions.

AI tool:
Grammarly is a great tool to ask for suggestions, clarity, and efficiency in a text.
